

## **FEMA/State Spring Flood Preparedness Meetings Schedule**

The meeting will be focused on awareness and preparedness given the forecasted outlook, as well as the importance of having a plan and an emergency supply kit including an effective flood insurance policy from the National Flood Insurance Program. We will provide a presentation, and then be able to answer any questions that residents may have. After a year flooding season like last, this is information that really will benefit all communities. All of the meeting locations, times, and dates are set. We would appreciate if any of you can attend the meetings in your region. You will notice its about 2 weeks later than it was last year. If you have any questions, please do not hesitate to contact my office. Thanks.
